

Table 14-3.02  
Primary Endpoint Analysis: CIBIC+ - Summary at Week 24 - LOCF

|                                    | Placebo<br>(N=79) | Xanomeline<br>Low Dose<br>(N=81) | Xanomeline<br>High Dose<br>(N=74) |
|------------------------------------|-------------------|----------------------------------|-----------------------------------|
| Week 24                            |                   |                                  |                                   |
| n                                  | 79                | 81                               | 74                                |
| Mean (SD)                          | 4.3 ( 0.77)       | 4.2 ( 0.79)                      | 4.3 ( 0.81)                       |
| Median (Range)                     | 4.0 ( 2; 6)       | 4.0 ( 2; 6)                      | 4.0 ( 3; 6)                       |
| p-value(Dose Response) [1][2]      |                   |                                  | 0.960                             |
| p-value(Xan - Placebo) [1][3]      |                   | 0.489                            | 0.799                             |
| Diff of LS Means (SE)              |                   | -0.1 (0.13)                      | 0.0 (0.13)                        |
| 95% CI                             |                   | (-0.3;0.2)                       | (-0.2;0.3)                        |
| p-value(Xan High - Xan Low) [1][3] |                   |                                  | 0.349                             |
| Diff of LS Means (SE)              |                   |                                  | 0.1 (0.13)                        |
| 95% CI                             |                   |                                  | (-0.1;0.4)                        |

[1] Based on Analysis of covariance (ANCOVA) model with treatment and site group as factors.

[2] Test for a non-zero coefficient for treatment (dose) as a continuous variable.

[3] Pairwise comparison with treatment as a categorical variable: p-values without adjustment for multiple comparisons.
